☎ +91-8287642034 ✉ Pratyakshtomar2000@gmail.com 🔗 LinkedIn 🐙 Github 📄 Code360 💻 Leetcode 🌐 Portfolio

TECHNICAL SKILLS

Languages: C, C++, Python, JavaScript

Web Development: React.js, FastAPI, HTML5, CSS3, Tailwind CSS

AI & Machine Learning: Groq API, LangChain, RAG, Ollama, NLTK, Scikit-learn

Databases: MongoDB, MySQL

Tools & Platforms: Git/GitHub, REST APIs, Vercel

Coursework: Data Structures, Algorithms, Object-Oriented Programming, Database Management System, Operating Systems, Computer Networks

PROJECTS

PratyakshAI | *FastAPI, Groq API, Python, HTML5, CSS3, JavaScript*

[Live Link](#) | [Github](#)

- Built a custom **AI-driven portfolio platform** featuring an interactive chatbot that answers recruiter queries by parsing an actual **PDF résumé**, powered by a **FastAPI** backend integrated with **Groq's LLM API** for low-latency inference.
- Engineered a **Job Description (JD) Matcher** that analyzes pasted job postings against résumé data in real time, generating an **AI-powered fit score**, key strengths, and skill gaps.
- Developed a fully **responsive frontend** using vanilla **HTML, CSS, and JavaScript**, integrating custom AI endpoints for real-time chat and JD-matching features.
- Designed a custom **scrapbook-themed UI** with handcrafted CSS filters and animations across multiple pages (home, about, projects, résumé), delivering a cohesive personal-branding experience deployed on **Vercel**.

E-Consultation Sentiment Analysis Dashboard | *React.js, Python, Flask, NLTK, Chart.js*

[Live Link](#) | [Github](#)

- Architected an **end-to-end sentiment analysis engine** using **FastAPI** and **TextBlob** to process public feedback CSVs and categorize comments into positive, negative, and neutral sentiment categories.
- Implemented automated NLP pipelines incorporating **LSA-based extractive summarization (Sumy)** and **top-term frequency extraction** to turn large comment sets into concise executive summaries and word clouds.
- Designed an interactive data visualization interface using **Chart.js** to display dynamic KPIs and sentiment metrics, featuring automated PDF report generation (**via fpdf2**) complete with embedded analytics.
- Built a responsive **React.js** frontend enabling users to upload feedback CSVs, trigger real-time analysis, and visualize sentiment breakdowns and summaries through a clean, intuitive dashboard interface.

EDUCATION

Dr. A.P.J. Abdul Kalam Technical University, Lucknow

Bachelor of Technology in Computer Engineering

2023 – Present

Dehradun Public School, Ghaziabad

Senior Secondary (Class XII) – CBSE

2020 – 2022

Dehradun Public School, Ghaziabad

Secondary (Class X) – CBSE

2018 – 2020

ACHIEVEMENTS

- Selected as a **finalist** in **Policy Conclave'26**, Indian Institute of Technology Kanpur.
- Participated in **Hacker's Premier League – Guru Gobind Singh Indraprastha University (Delhi)**.
- Competed in **National AI/ML Hackathon** by **AVEVA**, a national-level competition organised by IIT Hyderabad, building AI/ML solutions as part of team Thunders — Mar 2026.
- Awarded **Top Performer certificate** in **E&ICT IITG** Introduction to Programming by **Coding Ninjas × IIT Guwahati**, Feb 2025 (NSDC certified).
- Solved over **400+** coding problems across platforms including **LeetCode** and **Code 360**.
